

SHARPERLENDING LLC - the Company Behind the Appraisal Firewall Platform

SharperLending LLC is a mortgage technology provider that focuses on supporting local and regional businesses and strengthening communities through technology. Our company was founded in 1989 and is located in Spokane, WA. Since 1989, our mission has been to provide technology solutions that allow community businesses to compete on a national level, to stay connected with local vendors for the best service, quality and pricing, and deliver the best mortgage service to their customers. Our offices - shown below - are located in the heart of Spokane's historic South Hill district and where our community-oriented products get their start, their support, and their enhancement.

SharperLending LLC offers four flagship products with a number of ancillary products and services: Appraisal solutions through our **Appraisal Firewall** product, credit reporting technology through our **XpertOnline** product, 4506/income verification technology through our **TRV Provider** product, and a technology platform that enables access to all of our products plus products from other mortgage technology providers through our **Settlement Services Platform** product. Many of our products are available through a reseller channel, while some are offered direct to lenders. SharperLending upholds the strictest industry standards for data security and redundancy, holding PCI, E13PA, and Verizon Business certifications. Our technology is audited to achieve 99.995% uptime annually.
